## Global Network (14 sites in 9 countries abroad, 6 sites in Japan)

## Overview of the CCI Group

# CCI's Main Products

CCI delivers enhanced quality products and technologies in three distinct fields to provide customers with "safety, comfort, and peace of mind."

### Automotive Chemicals business

Engine coolant

## Golden Cruiser Long Life Coolant

Utilizing additives with excellent heat resistant and antioxidant properties, this product maintains long-lasting prevention of rust and corrosion. Its outstanding durability prevents problems that can arise from deterioration within the cooling system.

### Residential Construction Materials business

Soundproof drainage pipes

## OTO-NAIN

The OTO-NAIN soundproof drainage pipes, which dramatically reduce drainage noise in bathrooms and kitchens, boast top market share in Japan. These can be used in a wide range of structures from single-family homes to fire-resistant structures such as apartment complexes, hotels, and nursing home facilities. Designed for easy installation, they reduce the hassle for on-site workers.

### Automotive Chemicals business

Brake fluid

## Golden Cruiser Brake Fluid

Designed to have a higher wet boiling point than the competition even when moisture is absorbed, this product maintains high saturation temperatures over extended periods, crucial for safe driving. Its outstanding anticorrosive properties protect associated metals from rust.

### Automotive Chemicals business

Automotive coating agents

## SMART MIST

A simple spray and waxing of this product on cars immediately after a wash will leave a sparkling finish.. The more often it is used, the greater the shine, resulting in a smooth, easy to clean body.

### Residential Construction Materials business

Fat and oil-degrading microbial agents

## Oil Vanish

This is an oil-degrading microbial product, highly effective in breaking down greases that flow from food manufacturing plants into wastewater treatment facilities through the use of microorganisms. It is not only eco-friendly but also reduces oil disposal costs and unburdens businesses.

### Industrial Tires business

Industrial urethane wheels

## ULTRUNS

One of the main features of CCI's urethane wheels is their durability. The urethane is bonded and fixed to the metal core using uniquely developed technology, preventing separation and endowing longevity to the final product.

## Overview of the CCI Group

# CCI Products That Support Daily Life

CCI products are used in many different areas of people's daily lives. Here, we present examples of how these products are used in familiar aspects of our living environment.
